## LAN Information

How many computers will be connected to your network? _____	Do you require Domain Name Services? _____
Requested Domain Name: _____	

### OneNet Members Agree:

- 1) To the terms of the "Client Connection Policy."
- 2) To the terms of the "Acceptable Use Policy."
- 3) OneNet will help circuit clients apply for a domain name. Either OneNet or the InterNIC will bill the client for registered domain names on an annual basis. OneNet will assign IP addresses, both public and private, to its clients. These addresses will remain under the control of OneNet and the InterNIC.
- 4) That all routers that are owned by OneNet or that provide connectivity to OneNet will be configured and managed by OneNet staff and authorized representatives.
- 5) That billing for a Circuit begins when the OneNet hub router port for the institution / agency is operational, regardless of the status of the Local Area Network.
- 6) That billing for a Circuit will continue until OneNet receives written notice of cancellation.
